destiny easley

graphic designer

I'm a 22 year old Graphic Designer and Illustrator based in Atlanta, Georgia. I work in various media styles including video, digital illustration, and music production. My inspirations stem from different areas such as video games, cartoons, and horror. Works from popular broadcasting company Adult Swim have made an impact on me as a designer and I've been watching them since I was able to. When combining my personality with design, I'm able to create unique works that everyone can enjoy and relate to.

I'm an easy-going and laid back kind of person who's always willing to learn and grow, therefore becoming better than before.
