- All exams will be taken online through D2L using Respondus Lockdown Browser with Monitor.
- All exams may include Multiple Choice, True/False, Matching and/or Short Answer questions.
- If you start your exam between the times listed in the chart above for your section, you will get the full amount of time to complete your exam.
- All exams are to be taken individually with no outside resources per FYE Policy.
- All exams require you to show photo ID (Talon Card or government issued photo ID) during setup. Make sure to have your ID and to show it to the camera during setup process.
- Technical issues encountered during a exam should be handled according to FYE Policy to ensure that a make-up exam can be administered.
- I do NOT recommend waiting until the last 15 minutes of the times above to start your exam as setting up the exam in Respondus Lockdown Browser takes several minutes, which may cause you to miss the exam window. Note: this does not constitute a technical issue, this is a time management issue.
