

1. In order to submit a regrade request, you will first need to wait until after the deadline and you receive a grade.
2. If you have received a grade that you believe was not equivalent to the work you put into the assignment, you may then request a regrade.
3. Again, you will need to go to the course dashboard. It is the one that lists all current and past assignments.
4. From there, you will need to click on the assignment that you want. It will be listed below the active ones.
5. Once on that page, find the regrade button on the bottom right and click it.
6. Provide at least a sentence of reasoning for each question that you believe should be correct.
