College:	Clarice C. and Leland H. Bagwell College of Education
Department:	School of Instructional Technology and Innovation
Program:	Instructional Technology, EdD

Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

1. Design, conduct, and disseminate an original research study to address critical issues in the field of Instructional Technology and PK-12 educational settings.
2. Improve their PK12 technology-supported instructional practice by learning from and with others.
3. Facilitate PK12 student empowerment and achievement of content standards through technology-supported teaching and learning.
4. Engage PK12 students in positively contributing to and responsibly participating in the digital world.
5. Collaborate with both educator colleagues and PK12 students to improve practice, discover and share resources and ideas, and solve problems.
6. Design authentic, learner-driven PK12 activities and environments that recognize and accommodate learner variability.
7. Facilitate learning with technology to support PK12 student achievement of the International Society for Technology in Education Standards for Students (ISTE-S)
8. Use data to drive their instruction and support PK12 students in achieving their learning goals.
9. Plan, provide, and evaluate the impact of professional learning for PK12 educators to advance teaching and learning with technology.
