

Program Information

College:	Southern Polytechnic College of Engineering & Engineering Technology
Department:	Civil and Environmental Engineering – Undergraduate
Program:	Environmental Engineering, Minor

Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

1. Apply mathematics, science, and engineering principles in environmental engineering discipline.
2. Design and conduct experiments, analyze, and interpret data in the environmental engineering field.
3. Design a system, component, or process to meet desired needs in environmental engineering.
4. Identify, formulate, and solve environmental engineering problems.
5. Use the techniques, skills, and modern engineering tools necessary for engineering practice.
