

Program Information

College:	Southern Poly. College of Eng. & Eng. Technology
Department:	Electrical and Computer Engineering
Program:	Electrical and Computer Engineering, MS

Program Student Learning Outcomes

Upon completion of this degree from KSU, students will be able to:

- Demonstrate an ability to identify, formulate, and apply mathematics to advanced engineering-related problems
- Design and conduct experiments as well as analyze and interpret the results
- Demonstrate an ability to communicate in oral, written, and multi-media formats
- Recognize a need for life-long learning
