

BERRY COLLEGE

Kennesaw State University and Berry College
Bachelor degree at Berry College and Bachelor of Science degree in Civil, Computer, Construction, Electrical, Environmental, Industrial and Systems, Mechanical or Mechatronics Engineering at Kennesaw State University

This Articulation Agreement is entered into between the Board of Regents of the University System of Georgia by and on behalf of **Kennesaw State University** and **Berry College** to facilitate the process for the transfer of credit between the institutions, continue educational progress toward the completion of an approved degree program, and to minimize or avoid the loss of credit previously earned by a student who transfers to another institution. This Dual Degree Program Agreement reflects a commitment by both institutions to facilitate the transfer of credits earned from attending Berry College for approximately three (3) years and then transferring to an engineering program at Kennesaw State University. After completing the academic requirements of the two participating institutions, the student shall be awarded a bachelor's degree from Berry College and a Bachelor of Science degree in Civil, Computer, Construction, Electrical, Environmental, Industrial and Systems, Mechanical or Mechatronics Engineering, from the Southern Polytechnic College of Engineering and Engineering Technology at Kennesaw State University without jeopardizing the intended mission and stated goals of either institution. This Agreement acknowledges that each institution has established, and will maintain, rigorous standards and expectations for all students enrolled in and working toward the completion of its courses, programs, and degrees.

Agreement on Transfer

Berry College and **Kennesaw State University** agree to cooperate through a transfer articulation agreement for students attaining approximately three-fourths of the number of hours required for the degree at Berry College and completing the Kennesaw State University program of study that equals approximately the number of hours required in the junior and senior years of the degree program being sought. The total program shall satisfy all requirements for the dual degrees sought at Berry College and Kennesaw State University. Kennesaw State University agrees to accept all courses listed in the Appendix A for transfer into Kennesaw State University (required grade of "C" or better). Admission into Kennesaw State University's engineering major degree also requires meeting other non-course program admissions requirements detailed in the Kennesaw State University undergraduate catalog. Any Dual Degree student admitted to Kennesaw State University who does not successfully complete the requirements for the engineering degree will be readmitted to Berry College and given an opportunity to complete the requirements for a degree.

Agreement of Communication

Berry College and **Kennesaw State University** agree to cooperate in communicating with each other concerning the articulation relationship between the two institutions. Communications may include common publications and announcements concerning their affiliation. Announcements of this articulation, and of changes in the relationship, will have a coordinated release to the public from both institutions. The institutions will encourage the dissemination of information about programs in this agreement with interested and qualified students, with both institutions providing advising and counseling to prospective students. The student is responsible for communicating with the appropriate Berry College official when all courses are satisfied for the dual degree.

The development of this Agreement between Kennesaw State University and Berry College signifies that both have confirmed that:

- Each institution is currently in good standing with applicable regulatory bodies and regional accreditation;
- Credits awarded by the institutions have been evaluated and determined to be eligible for transfer; and
- Credits earned in Berry College have been deemed appropriate and applicable to transfer to Kennesaw State University.

Agreement on Maintenance and Review

The Kennesaw State University Associate Registrar and the Berry College Coordinator of Dual Degree Engineering will act as a primary point of contact and agent for this agreement, to speak for the institution, and to communicate details and modifications to respective faculty, advisors, and others with interest at the individual institutions. Both parties agree to review curriculum and any other conditions of this agreement as it might pertain to the institutions continuous improvement process and assessment.

Any modifications to this agreement must be made in writing and signed by all parties.

This agreement will be in effect for three years from the date of administrative endorsement. Renewal of transfer plans with appropriate content changes will be done on an annual basis. It will be automatically renewed unless one of the parties expresses, in writing, its desire to terminate the agreement giving six months notification with effective date to be the last day of the following term.

It is understood and agreed that any student participating in the program at Berry College specifically tracked for admission or admitted to Kennesaw State University under the Dual-Degree program will be allowed to complete the program notwithstanding the termination provisions above, so long as the student remains in good academic standing and is making measured progress towards completion of a degree program.

Engineering Standing: The first two years of a program's curriculum are considered to be lower division while the remaining two years are considered the upper division. For the most part, upper division engineering courses are those with course numbers in the 3000's and 4000's. In addition to the stated prerequisites and unless otherwise noted in the catalog, students must apply for and be granted Engineering Standing in order to enroll in any upper division engineering course taught in the College of Engineering. A 2.70 GPA is required to receive engineering standing in the courses noted below.

**Addendum to the Dual Degree Transfer Articulation Agreement
Between: Kennesaw State University and Berry College**

(effective date: 7/10/2017)

Effective date of the addendum: April 1, 2018

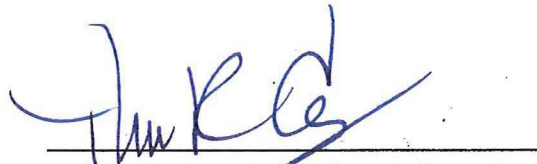

Bachelor Degrees awarded by Berry College to this agreement:

Bachelor of Science in Dual-Degree Engineering

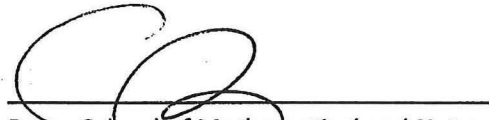

Bachelor of Science Degree in Applied Physics

Coordinator, Dual-degree Engineering,
Berry College

Dean, Southern Polytechnic College of
Engineering and Engineering Technology

Dean, School of Mathematical and Natural
Sciences, Berry College

Provost, Berry College
