Undergraduate Research Club

The [Undergraduate Research Club \(URC\)](#) is a Registered Student Organization dedicated to promoting undergraduate research and creative activity at KSU. Here are just a few things you can do as a member of the club:

- Learn more about how to get started in undergraduate research, how to find a mentor, how to publish and present your results, and how to get funding for your project.
- Help sponsor the Symposium of Student Scholars each year.
- Conduct research as part of an interdisciplinary team.

KSU student presents undergraduate research at international conference

Kennesaw State University student **Edwin Trejo-Rivera** presented his research titled “Examining differences in psychological capital, burnout, and work engagement among women in leadership positions,” which focuses on factors affecting the mental health of women leaders. The conference organized by the Interamerican Society of Psychology took place in June in Asunción, Paraguay. [Click here](#) to read more!

Get Involved!

Here are some quick ways to get started through the Office of Undergraduate Research:

- **[First-Year Scholars Program](#)**: Designed to pair first-year students with faculty mentors who will guide them on research in their disciplines.
- **[Undergraduate Research Club](#)**: Any student can join and conduct research as part of an interdisciplinary team.
- **[Current Research Projects](#)**: Listing of projects to help undergraduates find faculty who are looking for assistance on their research activities.
- **[Vertically Integrated Projects \(VIP\) Program](#)**: Any student can complete a student application to work on a large-scale research project with faculty and other students.

You do not need to have a specific idea in mind when approaching a faculty member to do research. Many students work with faculty members on their research, especially at first. Undergraduate research opportunities are often competitive, so be sure to engage in behaviors that make you stand out from the crowd.
