OVERVIEW

- The "Administrator's" Perspective
- Roles/Responsibilities of Faculty Members
- The QM Rubric
- Step by step for online teaching
- Utilizing available University Resources

The Administrator's Perspective

Lortie's (1975) Apprenticeship of Observation

▶ "The average student has spent 13,000 hours in direct contact with classroom teachers by the time he graduates from high school" (p. 61).

▶ Individuals without any formal training in teaching and learning can usually identify teachers and classroom environments that were particularly effective, and those that were highly ineffective.

▶ We do not have this same experience with online learning

SACS Compliance

- ▶ 3.7.3 Faculty development
  - ▶ The institution provides ongoing professional development of faculty as teachers, scholars, and practitioners. (Faculty development)

- ▶ Student learning outcomes must be the same (online and F2F)
 - ▶ Data collection methods and timing of data collection/assessments can be different
Transitioning Course to Online

AND THE IMPORTANCE OF "QUALITY MATTERS"

Transitioning Courses

➢ Content delivery must be effective and efficient

➢ Student engagement is _key_

➢ Without engagement, the students will not have a positive experience

➢ Faculty need either time or "credit" for transitioning a course/courses

➢ Same student learning outcomes . . . Different method/assessments

➢ Start with a course that is "less complex" than others
Quality Matters (QM)

▶ Quality Matters (QM) is a faculty-centered, peer review process that is designed to certify the quality of online and blended courses. QM is a leader in quality assurance for online education and has received national recognition for its peer-based approach and continuous improvement in online education and student learning

Quality Matters: Peer Course Review Process
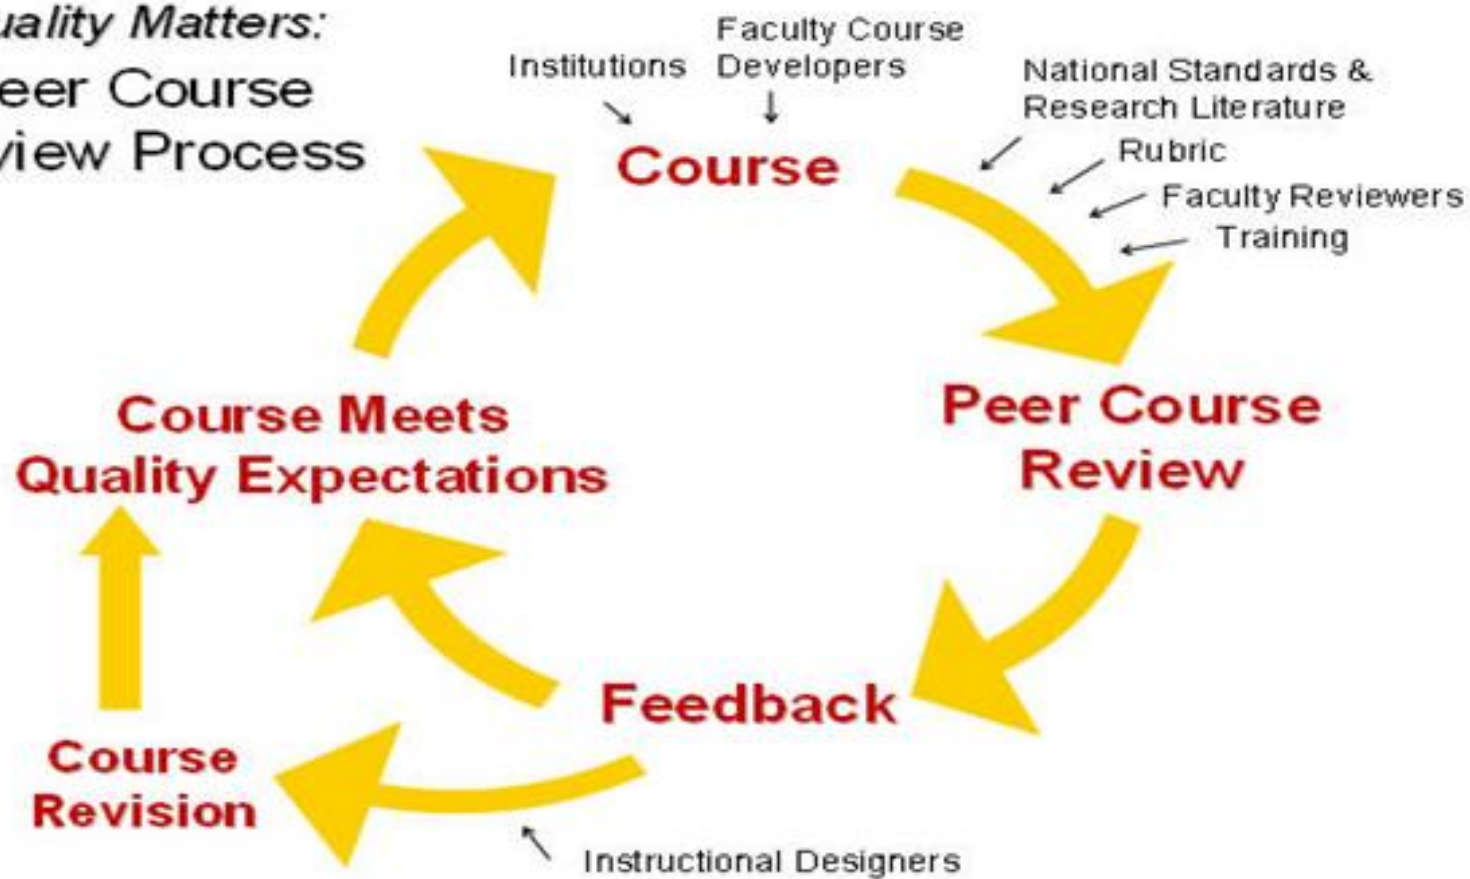

About The QM Rubric – 8 General Standards

1. Course Overview and Introduction
2. **Learning Objectives (Competencies)**
3. **Assessment and Measurement**
4. **Resources and Materials**
5. **Learner Engagement**
6. **Course Technology**
7. Learner Support
8. Accessibility

**Key components (in bold) must align.**

Alignment: *Critical course elements work together to ensure that students achieve the desired learning outcomes.*

Step-by-Step for Online Classes

What do Online Students Expect?

▶ Communication opportunities

  ▶ Explicit interaction and expectations defined

  ▶ High levels of interaction (emails, replies to forum posts, feedback on assignments, etc.)

  ▶ Prompt responses to emails, forums, voicemails, etc.

    ▶ 24 hour rule

▶ Mini-lectures for content (2-15 minute segments)

  ▶ Panopto, Camtasia, etc.

▶ Well-planned courses with explicit instruction

Course Design

- Online courses MUST be student-centered
  - Student Led Discussions
  - Students Find and Discuss Web Resources (all resources)
  - Students Help Each Other Learn (Peer Assistance)
  - Group Work (very challenging for the instructor and _**must**_ include peer evaluations)
  - Case Study Analysis
- Work with a course designer on campus
- **Use the QM Rubric to your advantage**

Before Class Begins

▶ Finalize all course materials and e-book selection (e-book if possible)

▶ Communicate with students by D2L Mail or posting to a forum

▶ Have a plan

  ▶ How will you handle tests? D2L? ProctorU? Testing Center?

  ▶ What about students who don't participate/participate minimally?

  ▶ What is your communication plan?

    ▶ 24 hour email return rule (except on weekends/holidays/away at conferences)

    ▶ 72 hour grading rules (same exceptions apply)

Day 1

- Communicate with students
  - Welcome letter/video
  - "Start Here" button
- Introduce yourself using an Introductions Forum
  - Have students introduce themselves as well!
- Check the FAQ Forum posts to see if students have any questions
- Be present in the course. Daily is best.
- Emphasize netiquette (rules of communication) and professionalism
- Set. The. Tone.

Day 2 – Final Exams

▶ Show up everyday.

▶ Use the Q&A forum to your advantage

▶ Grade assignments within 72 hours

▶ As you would in your face-to-face class:

  ▶ Assess (formally/informally) where there are gaps in learning new content/difficult concepts

  ▶ Create a culture of students-helping-students

  ▶ Check for understanding

▶ At the midpoint, conduct a mini-course evaluation
Forum Posts

▶ Great place to house what once were "class discussions"

▶ Monitor daily

▶ Grade/provide feedback daily

▶ Observe responses (tone, professionalism, etc.)

▶ Is netiquette being used?

　　▶ If so, praise the class!

　　▶ If not, address this individually with those who need a reminder

Assignments

▶ Grade within 72 hours

▶ Provide feedback (both positive and corrective)

▶ Summarize commonly made mistakes on a particular assignment and post in a forum

▶ Provide examples of exemplary work (if possible)

Tests

▶ How will you handle tests? (or will your course be project-based?)

  ▶ Testing center on campus?

    ▶ Convenient, trustworthy, requires students to be "local"

  ▶ D2L?

    ▶ Convenient, cannot ensure test integrity, cannot ensure student actions

  ▶ Respondus?

Survival Strategies/Maintaining Sanity

▶ Have a classroom management plan (just like you would in F2F courses)

  ▶ Set limits

  ▶ Do not always be available to learners

  ▶ Establish clear priorities for dealing with messages/assignments

  ▶ Put time limits on discussion

  ▶ Provide learners with predetermined answers to frequently asked questions

  ▶ If possible, use a TA to respond to students

  ▶ Try to immediately acknowledge the receipt of a student's question, and set a period of time in which feedback will be returned.

End of Course Reflection Survey

▶ Be sure you utilize the "usual" processes for end of course evals

Utilizing Available University Resources

You Are Not Alone!!

▶ Know the resources that exist on campus

  ▶ Distance Learning Center (Dale Suffridge: dsuffrid@kennesaw.edu)

  ▶ Video services (Dale Suffridge: dsuffrid@kennesaw.edu)

  ▶ Tech support (for faculty and students) (service@Kennesaw.edu)

  ▶ Professional development opportunities (Distance Learning Center/CETL)

    ▶ Webinars, brown bags, conferences, D2L tutorials, etc.

You Are <u>STILL</u> Not Alone!!!!

Charity Bryan: <u>cbryan4@Kennesaw.edu</u>

☺
